We learn that "Grand-ma" Anthony, who has been sick for some time at the home of her daughter, Mrs. G. I. Van Allen, is no better, and it is feared she may not recover.

E. J. Brennan and C. L. Quale, U. S. deputy marshals, brought in Thos. Johnson, son of Henry Johnson, who now lives out in Crawford county. Thomas is charged with illegal selling of liquor. The marshals took him to Ironton to be examined by U. S. Commissioner B. Fox.

Two new postoffices have recently been established in this county. One is named Birdie, and is on Goose Creek in the southwest part of the county. Jeannine Hopkins is postmistress. The other, Quaker, is located between Delgrade and Palmer, of which William Turner is postmaster.

Most of the successful candidates have filed their affidavits of election expenses under the corrupt practices act, with the county clerk. The expenses of the candidates range from \$50.00 down to fifty cents, the amount spent to elect a Republican prosecuting attorney in Washington county.

It is about time that our young folks were getting up some entertainments for the holidays. With the talent we have here, it should be an easy matter to get up a concert or dramatic entertainment which would be greatly enjoyed. We hope to hear of preparations being made for one or more holiday entertainments soon.

There will be a union Thanksgiving service at the Presbyterian church Thursday morning at 11 o'clock. All are cordially invited. The interior decorations of the church have been completed, and with the new carpet and new pews, the church is one of the handsomest on the interior in Southeast Missouri.

Acting Deputy Sheriff L. F. Castleman, on last Sunday served a capias execution on Chas. Aubuchon of near Cadet, and took him to Hillsboro Monday morning, where he was charged with selling liquor on Sunday. Mr. Aubuchon was released and will have to appear before the January term of circuit court in Jefferson county.

Mr. Michael Duffy, of the Fountain Farm, near Cadet, called at the JOURNAL office last Tuesday. Mr. Duffy, in connection with his son, is engaged in raising a fine grade of horses on his farm. They have on hand at present about 150 head, but intend to hold a stock sale soon. See advertisement in another column.

Last Friday evening a couple of hunters from Paris, Ohio, passed through Potosi. They had a one-horse wagon with them and had intended to extend their trip into Arkansas. While going through Stringtown, just south of Potosi, one of the men, whose name is said to be Hill, attempted to draw a rifle out of the wagon to shoot at a crow, and carelessly took hold of the gun by the muzzle. In some way the gun was discharged and the bullet struck Hill in the shoulder. He was brought back to town where the wound was examined by Dr. Hall, who advised him to go to St. Louis for an operation. The men sold their horse and wagon here at a sacrifice and left immediately for the city. On reaching Mineral Point they changed their minds and went to Bismarck, where Dr. Norwine extracted the ball. Hill's wound, while severe, was not considered dangerous, and he was able to proceed to his Ohio home.

Information has reached us through a special correspondent from Berryman, in the western part of this county, of an important industrial enterprise that is being established about two miles south of Berryman.

A German syndicate has purchased a large tract of land in township 37, range 2 west, from the Midland Blast Furnace Co., on which they will erect a \$50,000 plant for manufacturing wagon hubs and spokes, and all kinds of wooden handles, etc. They will also operate a saw mill for turning out hardwood lumber. Work in clearing the ground where the plant is to be located began last Tuesday, and teams are now employed in hauling machinery. It is the intention of this company to eventually give employment to about 200 hands, and by next week 20 families will be on the ground. A large number of dwelling houses are to be built at once, and as possible a store building, church and school house will be added.

It has also been stated that both Iron Mountain and Frisco Railroads are asking the privilege to extend their lines to this plant. Should this turn out to be a fact, here lies a chance for our citizens to cooperate with this syndicate in securing an extension of the Iron Mountain Railroad through the county to Berryman. Such an extension would divide the county almost in the center and would do open up many undeveloped resources.

Delgrade.

November 26, 1894.
A collision was barely averted the other day. While Wiley & Johnson were passing through our streets with a drove of cattle, one of the steers suddenly became infuriated and, with head down and back arched and tail elevated, started down the street and with animal instinct, true to nature, went for his supposed enemy, a no less personage than our famous mill driver, "Observe" and as the boys expressed it, "he hit a smack" for safety. Those who witnessed the race say that the skirts of his cut-away fanned the breeze with the rapidity of a pigeon's wing. All are confident that the winner of the De Soto foot-race would have been distanced if he had been in this race. The boys say it was a head and tail race. Said one of our boys made a strategic right oblique movement and cleared a five-foot barred wire fence at one bound just as the steer's head struck the fence with great force. Distance run, about 50 yards. Time, too short to be computed.

"PETITE."

Sullivan.

November 24, 1894.
A big fire and great loss of property occurred here on the evening of 20th. The general merchandise establishment of Clark & Martin was entirely destroyed, causing a loss between \$20,000 and \$30,000. The property, we learn, was fully insured. The fire was started from a defective line and was soon beyond all control. Fortunately the wind, which had been blowing hard all day, had died out or the fire would have spread to the elevator and flouring mill and other building, and a general conflagration would have ensued.

Rain is needed very badly in this section, and cisterns are getting very low.

The wife Austin Northcutt, of Potosi, is lying very low at the home of her father, A. I. McIntosh, at this place. She is liable to die at any moment.

Exchange Notes and Clippings.

A painter named Paul Cherry was struck by a train at Ironton last Wednesday, but was not seriously hurt. He was riding a railroad velocipede at the time.

Z. T. Berryman is having the rock hauled on the ground preparatory for the reconstruction of his livery stable, which burned last week. This time Mr. Berryman will make the outside walls solid rock, which will make the building almost fire-proof.—Fredericktown Democrat.

The cornerstone the new Marvin College will be laid at Fredericktown on the 1st of January. Excavation for the foundations is about completed.

Read, Note and Digest.

The day of fasting draweth nigh. And scores of turkeys soon must die. Get one that's young and sweet and fat. And stuff it full of R. of this and that. With herbs and berries, sauces make. And add preserves and pies and cake. Ask friends and kindred all to come. And spend Thanksgiving at your home. Let not the cares of life distress. But fill each glass with happiness. Revive the joys of youthful days. And for thy blessings offer praise. —"HOME LIFE."
